

Jesus, You Live Here

words & music by C. Denise Young

**As I look inside my heart, see just who I am,
My mind so full of memories, like my childhood home.**

**Some are good, some are bad, others fade away,
Remake my inner being, Lord, heal my soul today.**

**Teach me love, help me grow,
What I am and long to be, I know I've far to go,**

Erase the hurt, chase the fear,

**Peace is flowing through my heart,
Master, You live here, shadows disappear,**

Jesus, You live here!

**As I look inside my heart, change is taking place,
I'll put away the childish things, see love face to face.**

**Death and resurrection of every part of me,
The pain I feel cannot compare with the joy that sets me free.**

**Teach me love, help me grow,
What I am and long to be, I know I've far to go,
Erase the hurt, chase the fear,
Peace is flowing through my heart,
Master, You live here, shadows disappear,
Jesus, You live here!**

**As I look inside my heart, see the change in me,
A soul house with many rooms, full of light and peace.
And when I look behind me, I see You've brought me far,
You've healed my spirit with Your love,
Oh, Lord, You've healed my heart.**

Last time -- **With Your love, You've healed my heart,
For Jesus, You live here.**
