

# **LIFE'S SONG**

*(words by Jean Giroux & C. Denise Young / music by C. Denise Young)*

## **Verse 1)**

**Here we stand, with tender hands, Innocent hearts with hopes and plans**

**Different and yet we understand,**

**The covenant enfolds the wedding of our souls.**

**We'll face this world and what it has, walking together as best friends**

**And we'll be lovers to the end of the pages of our lives untold.**

## **(Chorus)**

**Hold me, love me, as the morning comes (*2nd time - evening comes*)**

**Promise to cherish, learning to love one another,**

**Look as years pass, how we've come along,**

**Singing together, we are one, we're harmonizing**

**Life's song, life's song.**

## **Verse 2)**

**When we stand with aging hands, knowing we've loved through good and bad**

**Thanking the Lord for what we've had,**

**He's the essence of our life, the essence of our song ...**

**And on that day we'll reminiscence, of hearts filled with laughter, passing tears**

**The gift to our children through the years is the legend of our life and song!**
